**(...omissis...)**

### **5.Final Cycle XXXI and Annual reports, calendar.**

Cycle XXXI Reports will be placed towards the end of September. By the end of July the Tutors should indicate dates to send to Auditors and possible names (2, better 3)

As established at the beginning of Cycle XXXI, in order to obtain admission to the final exam you will need to have a publication, of the "research article" type in a peer-reviewed journal, with indication of UniTo affiliation.

The Coordinator requests that the Rules of Procedure clauses be put to the vote.  
to apply for this decision:

1. The article may be in "submissive for publication" status, provided it is accepted or with Referees indicating "minimum revision" (Minor revision or Minor changes).  
*The Board unanimously approves.*

2. Articles in which the Student does not appear as the first Author will also be admitted, as long as the article is congruent with the thesis.  
*The Board unanimously approves.*

3. It is also proposed to exclude from the obligation of the published article the "industrial" students, i.e. those who have carried out the research period relating to the Ph.D. in a company.  
*The Board unanimously approves.*

All decisions are approved unanimously by those present.

The meeting is closed at 7 p.m.

The Coordinator.

Prof. Michele De Bortoli
